

## M18 F2BL | M18 FUEL™ DUAL BATTERY BLOWER

- POWERSTATE™ Brushless Motor: Delivers more power under load and longer motor life
- REDLINK PLUS™ Intelligence: Provides optimized performance and overload protection using total system communication between tool, battery and charger
- Up to 12.74 m<sup>3</sup>/min of air volume at 193 km/h to clear debris
- Variable speed trigger delivers full control over power range and ability to feather trigger in precise applications
- Included nozzle attachments provide ability to optimize airflow for different applications
- Shoulder strap included provide optimized balance and allows the nozzle to naturally point towards the blowing surface, reducing fatigue and boosting control

Air Volume (m <sup>3</sup> / min)	17
Air Flow speed (km/h)	233
Blowing force (N)	17.7
Noise rating	83 dB (A)
Length (Tool only)	866 mm
Recommended Battery	(2) M18 HB8
Weight w/ (2) 8.0 Batteries	4.8 kg
